CAPABILITY DECK

CORECENTRIC

CONTINENTAL GROUP

One Core. Every Radius.

Cyber · Compute · Continuity

Dubai, U.A.E. — serving Northern, Eastern & Central Africa

WHO WE ARE

A protected core, projecting capability outward.

CoreCentric Continental Group is a UAE-headquartered technology and infrastructure group delivering secure digital capability across Northern, Eastern, and Central Africa.

Operating from a neutral Dubai hub with same-day reach across the continent, the Group designs, builds, and operates the critical systems governments and enterprises depend on.

> *“CoreCentric Continental Group builds and protects the digital core of Africa's fastest-growing markets — one trusted partner, from the core of the network to the edge of the continent.”*

Pillars

Hub-and-Radius
Operating model

WHAT WE DO

Three pillars, one integrated core.

Each pillar protects, powers, or sustains the same client core — one accountable team, no seams between vendors.

CYBER

The core is defended.

- SOC/SIEM & 24/7 monitoring
- Critical infrastructure protection
- Public safety systems & C2 centres

COMPUTE

The core is powered.

- Data centres & edge facilities
- AI / GPU compute capacity
- Sovereign cloud enablement

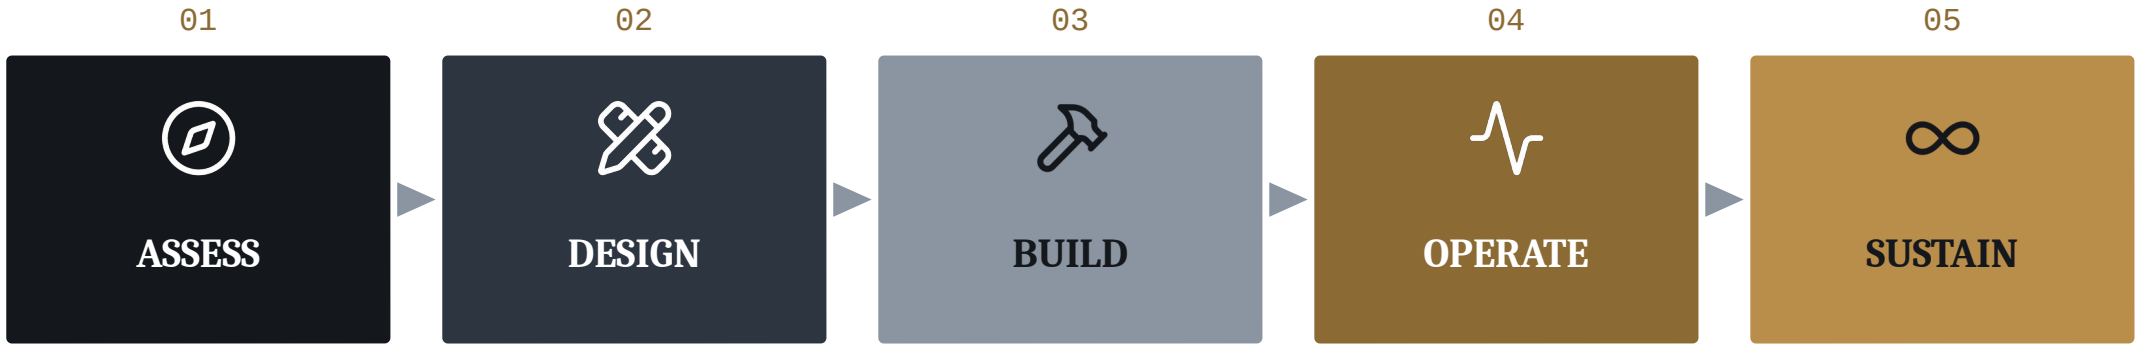

CONTINUITY

The core never stops.

- Disaster recovery & redundancy
- Managed operations
- Incident response

A single methodology, start to finish.

Every engagement moves through the same five stages, carried by one accountable team from assessment through to sustained operation.

WHY CLIENTS CHOOSE US

Built for clients who can't afford seams.

The risk of a fragmented delivery model — one vendor for cyber, another for infrastructure, a third for continuity — is a risk governments and enterprises can no longer carry.

Single Accountable Partner

One team across cyber, compute, and continuity.

Sovereign, In-Country Delivery

Data and infrastructure stay within jurisdiction.

Neutral Regional Integrator

Independent of any single African market.

Government-Grade Rigour

Public-safety & critical-infrastructure discipline.

Dubai Hub Reach

Same working-day access across the region.

Dubai: neutral ground, engineered reach.

Neutral, globally-recognised jurisdiction

Credible on government tenders, infrastructure financing, and investor documentation.

Free zone structures (DMCC / ADGM)

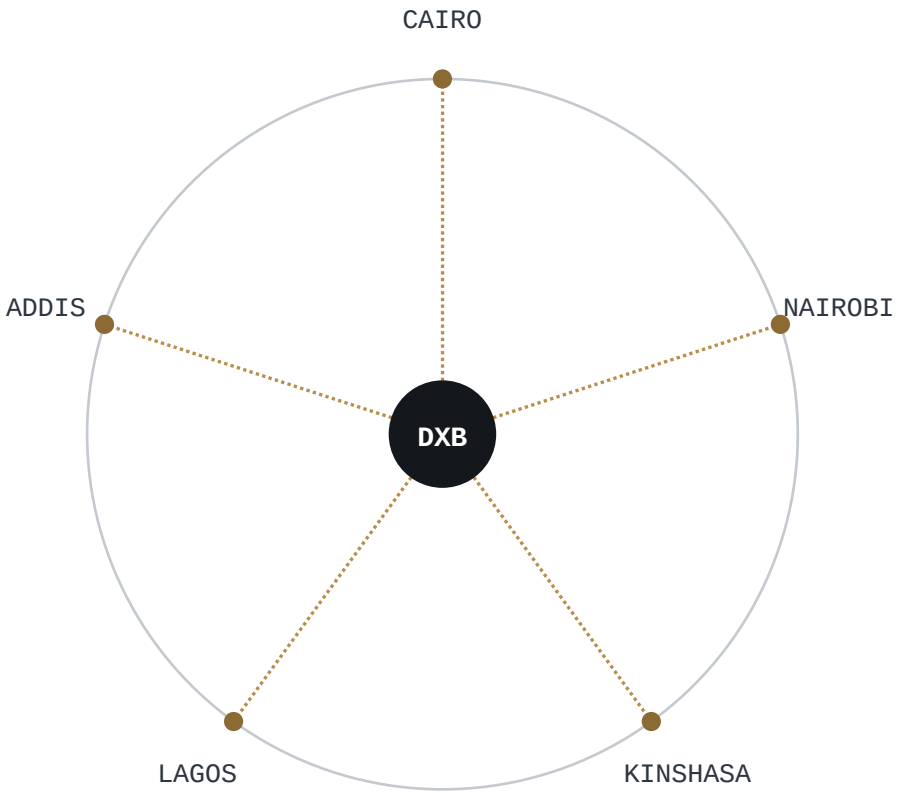

Fast incorporation, banking, and access to Gulf capital funding African infrastructure.

Same working-day reach

Nairobi, Addis Ababa, Cairo, Lagos, and Kinshasa — all in one business day.

Independent regional integrator

Not a subsidiary of any single African market — credible across competing tenders.

COVERAGE

Three regions, one continental footprint.

Northern Africa

Gateway markets

- Egypt
- Morocco
- Tunisia
- Algeria
- Libya

Eastern Africa

Growth corridor

- Kenya
- Ethiopia
- Tanzania
- Uganda
- Rwanda
- Djibouti

Central Africa

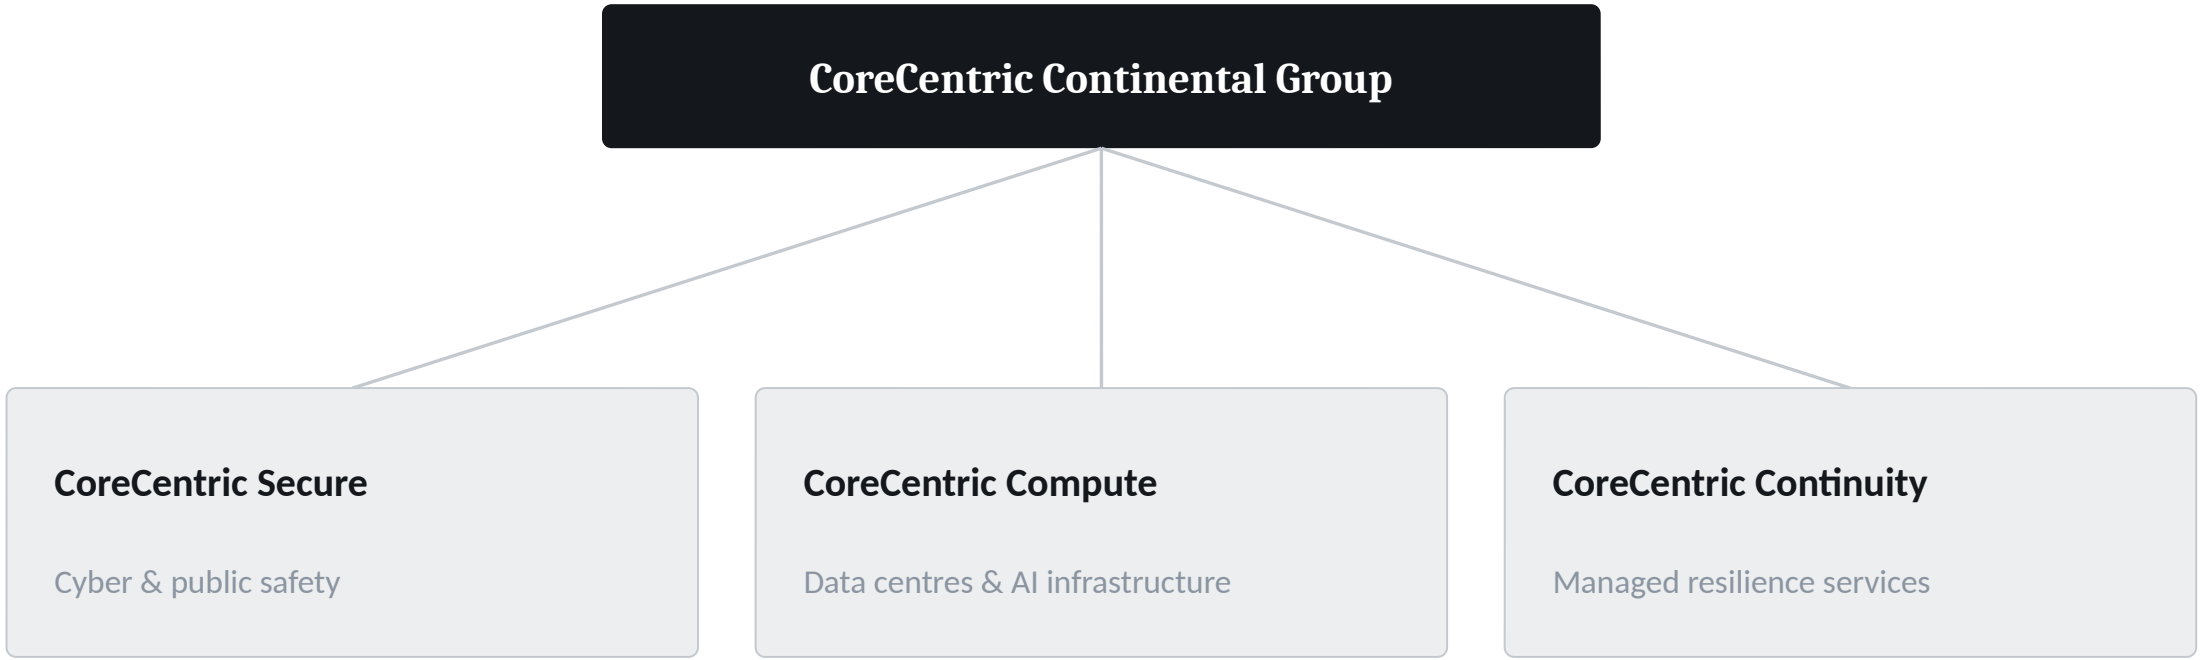

Emerging infrastructure

- DR Congo
- Cameroon
- Gabon
- Republic of Congo
- Chad

GROWTH PATHWAY

Room to mature into three divisions.

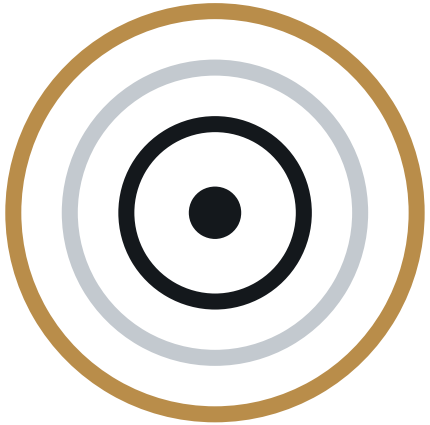

One brand architecture, one balance-sheet narrative, one continental footprint — with space for each pillar to become a distinct operating division as the business scales.
